

ATLANTIC PURIFICATION SYSTEMS LTD.
Inside Sales Support – Environmental Division
(fulltime)
Dartmouth, Nova Scotia

We are currently accepting resumes for a position to support our water and wastewater treatment equipment sales division. Product lines include equipment & supplies for laboratory & field testing, testing chemicals and ultraviolet disinfection parts.

Responsibilities will include:

- Sales and order processing for walk-in customers as well as responding to telephone/fax/e-mail correspondence and orders.
- Troubleshoot and provide basic technical support to customers.
- Support other sales staff as required.

Qualifications of ideal candidate:

- You are a quick learner who is well-organized, self-motivated and able to multi-task.
- You are committed to deliver high levels of customer satisfaction.
- You have superior communication skills: face-to-face, written and via telephone.
- You are proficient using the MS Office Suite and Outlook.

Education/Experience:

- Science education or interest in water treatment, and related work experience (sales/sales support or using treatment/lab equipment) would be considered assets.

We offer a competitive salary, benefits and training, in a fast paced, rapidly growing and stable organization. **We thank all applicants for their interest; however, only those candidates chosen for further consideration will be contacted.** Please send your resume to: cathy@aps.ns.ca

Atlantic Purification Systems Ltd. is a family owned sales and service business, situated in Dartmouth, NS, that has been successfully serving the municipal, industrial and commercial markets in Atlantic Canada since 1970. APS works with consultants, contractors, municipalities and industry to provide and support state-of-the-art equipment solutions for water and wastewater treatment, water quality analysis and testing, pumping and fluid handling, compressed air and painting & sandblasting. APS is also one of the primary distributors in Atlantic Canada of wholesale equipment to contractors and service companies involved in residential and commercial water conditioning.
